

## DEPARTMENT OF CIVIL ENGINEERING

**Name of the Lab : CONCRETE AND HIGHWAY ENGINEERING LAB**

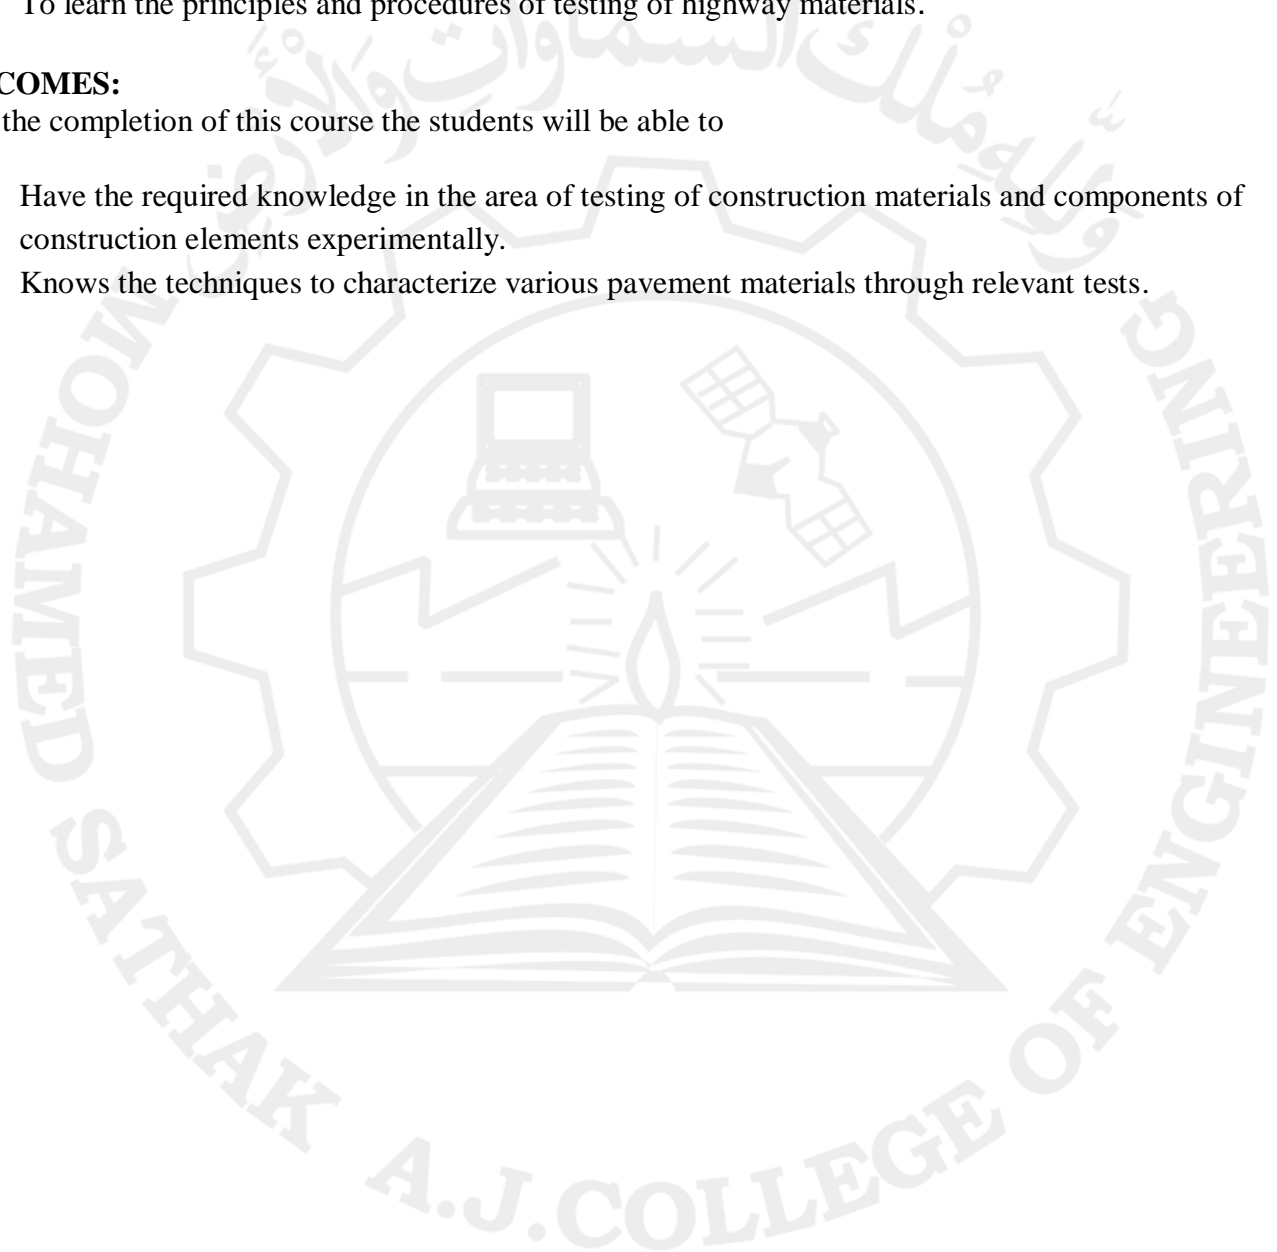

### OBJECTIVES:

- To facilitate the understanding of the behavior of construction materials.
- To learn the principles and procedures of testing of highway materials.

### OUTCOMES:

Upon the completion of this course the students will be able to

- Have the required knowledge in the area of testing of construction materials and components of construction elements experimentally.
- Knows the techniques to characterize various pavement materials through relevant tests.

Estd - 2001
