◢ AUTODESK

EDUCATION
ACCESS

Dear MOHAN S R,

You're all set as a **primary admin**! As a primary admin, you can now invite eligible students to access Fusion 360.

As an educator with confirmed eligibility for educational access, you can also get other Autodesk® products for your class from the Class/Lab tab on the **Get Products page** within the Education Community. The products you access and assign to students are available until your Autodesk Education plan expires on March 24, 2024. You can **renew** your Education plan annually as long as you are an eligible educator.

Now, when you invite eligible students to use Autodesk products, they don't have to individually confirm their eligibility for educational access. However, if your eligibility expires, so will student access to Autodesk products under your account. So be sure to keep your eligibility current.

To use your primary admin privileges, sign in to your Autodesk Account at **manage.autodesk.com**.

Here are some actions you can take to manage student access to Autodesk products:

1. **Add students** individually or in bulk.
2. **Assign students** to a product. You have access to 125 single-user subscriptions for each product you selected on the **Get Products page**.
3. **Remove student access** at the end of the school term. This frees up single-user subscriptions for your next class.
4. If necessary, assign a **secondary admin** to help manage student access to Autodesk products.

PRINCIPAL
Mohamed Sathak A.J. College of Engineering

You're all set as a primary admin! As a primary admin, you can now invite eligible students to access Revit.

As an educator with confirmed eligibility for educational access, you can also get other Autodesk® products for your class from the Class/Lab tab on the Get Products page within the Education Community. The products you access and assign to students are available until your Autodesk Education plan expires on March 24, 2024. You can renew your Education plan annually as long as you are an eligible educator.

Now, when you invite eligible students to use Autodesk products, they don't have to individually confirm their eligibility for educational access. However, if your eligibility expires, so will student access to Autodesk products under your account. So be sure to keep your eligibility current.

To use your primary admin privileges, sign in to your Autodesk Account at manage.autodesk.com.

Here are some actions you can take to manage student access to Autodesk products:

1. Add students individually or in bulk.
2. Assign students to a product. You have access to 125 single-user subscriptions for each product you selected on the Get Products page.
3. Remove student access at the end of the school term. This frees up single-user subscriptions for your next class.
4. If necessary, assign a secondary admin to help manage student access to Autodesk products.

Users invited to access Autodesk products under your Autodesk Account must be students, faculty, or staff at your educational institution and meet Autodesk education eligibility requirements, including minimum age requirements, to use Autodesk products for educational purposes.

GO TO AUTODESK ACCOUNT >

If your students will be using browser access to Fusion 360, please share this product URL with them: https://fusion.online.autodesk.com.

Still have questions? We've got you covered.
