## Spectacles - YAY or NAY?

We all know that the struggle is real for those who wear glasses all the time. The ones with good vision don't realise how lucky they are, when we wake up in the morning, the world looks like an aesthetic blurry filter from Instagram. Even the things we see everyday seem foreign without the two pieces of glass on our faces!

Drinking a warm cup of coffee, a relief for many, is a task for us, only if there was a defroster for our glasses to stop all the fogging up!!! Many go on motorcycle rides to kill stress, but the ride might kill us due to the droplets on our glasses and the blindness it causes.

We look like clowns, with two pairs of glasses while watching 3D shows. We can't afford to be irresponsible by losing our spectacles because we need them to search for them! No matter how annoying it is, it makes our lives more comfortable undoubtedly, ironically.
