**DEPARTMENT CONSULTATIVE COMMITTEE – MINUTES OF THE MEETING**

Date: 21.07.2023

As per the Regulations 2017, a department consultative committee is constituted to offer value added course for the 7<sup>th</sup> semester, B.E Electronics and communication engineering students pursuing their studies at Mohamed Sathak A J College of Engineering (MSAJCE), Siruseri, Chennai. The following members were present for the meeting held on 20/07/2023 at Department of B.E Electronics and Communication Engineering, MSAJCE.

S.No.	Name & Designation	Member of Bodies	Signature
1.	Dr.I.Manju, Professor & Head/IQAC, MSAJCE.	Monitor the progress of the course	I Manju
2.	Mrs.B.Murugeshwari , Assistant Professor /ECE, MSAJCE	HoD/ECE	M. Am.
3.	Mr.M.Kamarajan /ECE, MSAJCE	Coordinator	Ah
4.	Mrs.S.Piriyadharshini/ECE, MSAJCE	Faculty handling the course	Shylini

The consultative committee has decided to offer IOT USING ARDUINO for the students since it is essential for them to acquire knowledge and work in core Industry. The committee recommends Mrs.S.Piriyadharshini, Assistant Professor handle the course and train the students in IOT USING ARDUINO. The curriculum & syllabus, internal assessment pattern and awarding of grades are discussed and passed on the meeting for approval. The consultative committee constituted for value added course has recommended to conduct the course as lab integrated theory and approved the same.

**Objectives:**

- To expose student and gain knowledge about Arduino technology with IOT
- To Program and construct applications using Arduino using a number of different sensors and IOT

**Unit – I Introduction to Arduino**

Embedded processing portfolio, Architecture and hardware organization of Arduino, Configuring GPIO and Clock systems, Real time applications using GPIO configuration, LCD interfacing, Technical explanation ADC, Configuring ADC, Real time applications using Sensors

**Unit – II Interfacing with Zigbee**

Bluetooth Interfacing, Android mobile based device control ,GSM interfacing and send SMS, Real time Application Development with GSM ,Zigbee Interfacing, Data transmission using zigbee, Real time applications interfacing with sensors and Zigbee

**Unit – III Real Time applications**

DC Motor Interfacing, H-bridge concept and design and ultrasonic interfacing, Clockwise and anticlockwise control, Real time applications interfacing with robotic vehicle model, Real time applications interfacing with sensors and Robot

**Unit – IV Li-Fi with Ardino**

Introduction, Li-Fi based Data communication, Interfacing Li-Fi with Arduino, Application Development with Li-Fi.

**Unit – V IOT –Configuration & Integration**

Introduction to IoT & Scope of IoT, Web page creation, Data transmission from sensors, Configuration webpage ,Sensor data monitoring , Wireless Interfacing, Android mobile based device control, GSM interfacing and send SMS, Real time Application Development with GSM, Zigbee Interfacing Data transmission using zigbee, Real time applications interfacing with robotic vehicle.

**Outcomes:**

The students will be outfitted with hands on knowledge in IOT using ARDUINO.

Upon completion of the program, the students will be able to

- Problem-solving
- Communication skills

**Materials:**

- Paper
- Drawing materials - pencils, colour pens

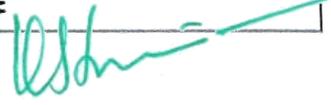

**Plan:**

Discussion points	Timing
<p>Introduction to the session:</p> <ul style="list-style-type: none"> <li>- In this session you will learn about building entrepreneurship skills</li> <li>- <i>Ask participants what they understand by entrepreneurship (get 2-3 responses)</i></li> <li>- Entrepreneurship is the act of setting up your own business and taking action with the hope of servicing your customers and making a profit</li> <li>- With e-sevai you are starting your own business, and we want to support you in being successful</li> </ul>	<p>5 minutes</p>
<p>Drawing your vision:</p> <ul style="list-style-type: none"> <li>- Using the paper and pens in front of you, draw what you want for your e-sevai centre (<i>encourage them to think about what it would look like - lots of customers, people saying good things about the centre...</i>)</li> <li>- Your drawing doesn't have to be perfect, you don't have to worry about being evaluated for your drawing (important)</li> <li>- Take 5 minutes to draw a thriving e-sevai centre which you run</li> <li>- Ask participants to share out what they drew and amplify key ideas (lots of customers, citizens getting the services they need, them making enough to make ends meet for their families, popularity of their centre...)</li> </ul>	<ul style="list-style-type: none"> <li>- 2 minutes to introduce the activity</li> <li>- 5 minutes drawing activity</li> <li>- 5 minutes of sharing out</li> </ul>
<p>To run a thriving e-sevai centre, you need to think of the following:</p> <ul style="list-style-type: none"> <li>- Footfalls (how many people visit your e-sevai centre every day)</li> <li>- Revenue (how much money did you earn by providing services)</li> </ul>	<p>10 minutes</p>

<ul style="list-style-type: none"> <li>- Costs (how to make sure I save more to make a higher profit)</li> </ul> <p><i>Ask participants to share what they think about each of the three elements. Ask questions and get them to answer such as:</i></p> <ul style="list-style-type: none"> <li>- <i>How many people do you think should come to your centre every day? (make them calculate based on the number of people living in the vicinity - cannot be in 100s or 1000s)</i></li> <li>- <i>How many can you bill for? (again using the rate card make them to get to an estimate)</i></li> <li>- <i>What are some things that will cost money? (printing paper, cost of the space, infrastructure)</i></li> </ul>	<p>5 minutes</p>
<p>Present a simple profit and loss statement for the month:</p> <p>Revenue = services x rate card price</p> <p>Expenses:</p> <ul style="list-style-type: none"> <li>- Rent</li> <li>- Office supplies</li> <li>- Wages (should you employ someone)</li> <li>- Utilities</li> <li>- Marketing</li> </ul> <p>Profit = Revenue - Expenses</p> <p>What do you need to make this happen?</p> <ul style="list-style-type: none"> <li>- Customer focus <ul style="list-style-type: none"> <li>- Having a space that is welcoming (infrastructure guidelines)</li> <li>- Creating an environment where they feel they will be heard and treated right (citizen focus coming up in later session)</li> <li>- Make sure you are solving for the citizen's problems (whether it is getting a certificate or solving a documentation issue)</li> <li>- Ask for feedback from customers</li> </ul> </li> <li>- Problem solving</li> </ul>	<p>15 minutes</p>

### Report on EFA Training

e-Sevai for all Training was organised by ICT Academy in our college and we were given training by members of TNeGA and ICT Academy in a google meet. The training program was scheduled by the ICT Academy and for every training day the name list along with attendance. The agenda of the training was shared with us by the training partner and also they shared the materials required for the training. For every operator they were provided with small notebook and a pen for their reference. The training session will also be handled by Bank of Baroda Official to explain the schemes allotted for the operators and loans also the other details. The training was handled in computer lab 417 so that the trainer would access internet for the practise session and also some kind of discussion based activity was handled to make them understand about the entrepreneurship qualities. The practise session in system will be in the payil app of the TNeGA because to get them out of the difficulties which they were facing day by day and at the end of the session feedback regarding the eSevai website will be collected in paper if they are interested and also online feedback will be collected from TNeGA.
