(Approved by AICTE, New Delhi and affiliated to Anna University, Chennai)  
Siruseri IT Park, Egattur, Chennai - 603 103

## INDEX

### 2.3.1

S. No	Content	Page No.
1.	Sample Lab Record	2 – 8
2.	Industrial Visit / Project Tutorial Sheet	9 – 35
3.	International Conference Report	36 , 37
4.	Workshop/FDP/Seminar	38 – 50
5.	Research Paper Publication	51 – 59
6.	Online Course Certification	60 – 77
7.	Internship	78 – 91
8.	Value Added Course	92 – 100
9.	Innovative Teaching Methods	101 – 102
10.	Co – curricular Activities	103 – 109
11.	National Service Scheme Events	110 – 112
12.	Professional Society Based Activity	113 – 116
13.	Placement Events	117 – 140
14.	Real Time Industrial Projects	141 – 144

**SYLLABUS**  
**(TO BE AFFIXED)**

Regulation: 2014

CS8481

**DATABASE MANAGEMENT SYSTEMS LABORATORY**

**L T P C**  
**0 0 4 2**

**AIM:**

The aim of this laboratory is to inculcate the abilities of applying the principles of the database management systems. This course aims to prepare the students for projects where a proper implementation of databases will be required.

**OBJECTIVES:**

- To understand data definitions and data manipulation commands
  - To learn the use of nested and join queries
  - To understand functions, procedures and procedural extensions of data bases
  - To be familiar with the use of a front end tool
  - To understand design and implementation of typical database applications
1. Data Definition Commands, Data Manipulation Commands for inserting, deleting, updating and retrieving Tables and Transaction Control statements
  2. Database Querying – Simple queries, Nested queries, Sub queries and Joins
  3. Views, Sequences, Synonyms
  4. Database Programming: Implicit and Explicit Cursors
  5. Procedures and Functions
  6. Triggers
  7. Exception Handling
  8. Database Design using ER modeling, normalization and Implementation for any application
  9. Database Connectivity with Front End Tools
  10. Case Study using real life database applications

**TOTAL: 60 PERIODS**

**OUTCOMES:**

Upon completion of the course, the students will be able to:

- Use typical data definitions and manipulation commands.
- Design applications to test Nested and Join Queries
- Implement simple applications that use Views
- Implement applications that require a Front-end Tool
- Critically analyze the use of Tables, Views, Functions and Procedures

Respected Sir,

**SUB: Industrial Visit- Reg.**

We have arranged one day Foundation visit M S Swaminathan Research Foundation, Chennai for II year and III Year Students of strength 18 on **06-02-2019** – Thursday.

I kindly request you to approve this Foundation visit and sanction the amount of Rs 1900/. Also I request you to arrange the transport facility on that day for the below given address. Please do the needful.

The details are below,

No. of students =  $18 \times 100 = 1800$

No. of faculty =  $1 \times 100 = 100$

-----  
TOTAL: Rs.1900/-  
-----

**Schedule:**

Departure from college: 9.30 am

Session I: 11.00 am to 1.00 pm

Departure from Foundation: 2.30 pm

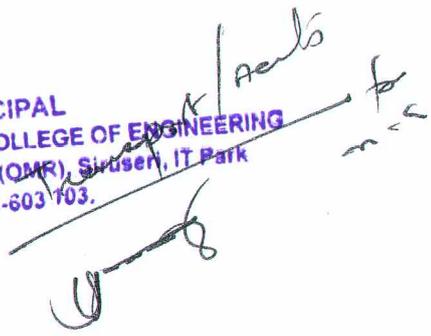

**Institution Address:**

M S Swaminathan Research Foundation,  
3<sup>rd</sup> Cross street, Institutional Area,  
Tharamani, Chennai – 600 113  
Contact: 044 22541229.

On Fri, Dec 14, 2018 at 3:37 PM NARL Scientific-Technical Visits <stvisits@narl.gov.in> wrote  
Sir,

As per our NARL student visit guidelines we are eligible to provide once in a six months for one college visit NARL.

As a part of this, Mohamed Sathak A J College of Engineering has been slotted on 15-02-2019 on morning session for 29 students with 2 faculty ("Mobile computing and Microprocessors & Micro controllers")

Thank you.

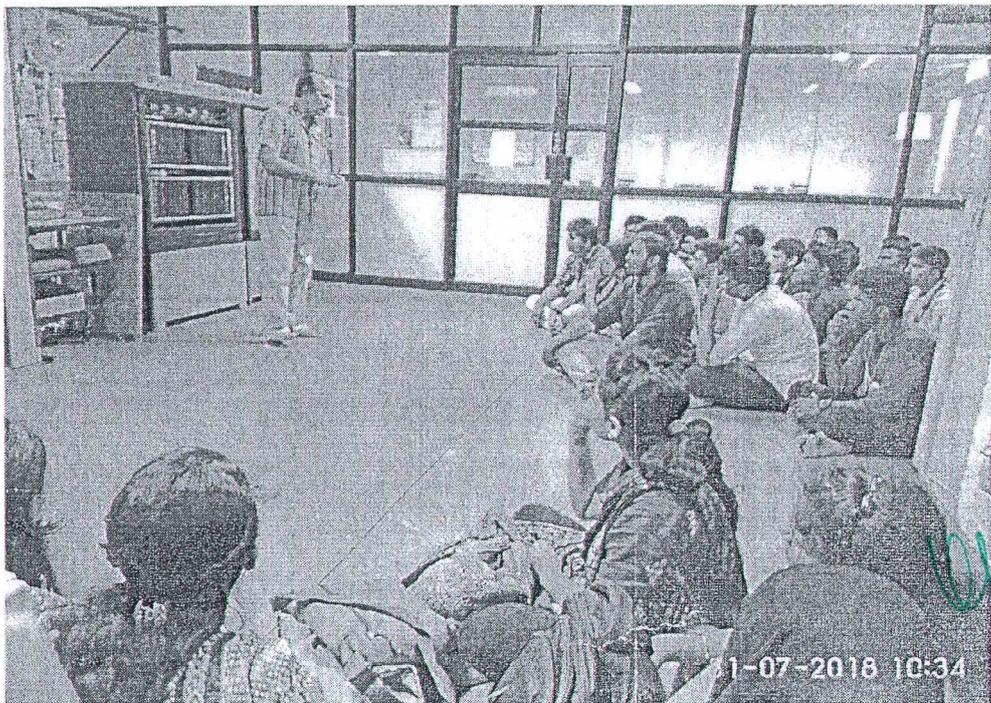

with regards,

Dr. V. Ravi Kiran

INDUSTRIAL VISIT – FEEDBACK

COMPANY NAME: BSNL

PLACE: Maraimalai Nagar

DATE: 31.7.2018

TIME SLOT: 10:30AM to 1:00 PM

YEAR/SEMESTER: II/III

Total No. of Students participated: 7

Faculty accompanied: Mr.M.Mohideen AbdulKader, AP/CSE.

Feedback:

BSNL RTTC (Regional Telecom Training Centre) are one of the best training centers of BSNL (Bharat Sanchar Nigam Limited), imparting training on Telecommunications, ICT & Skill development. Demo on latest telecom equipments was given by the experts of RTTC. Optical Fiber cable and its components and functionalities were well explained to the students. Last but not the least we visited the museum, where olden day's equipments were placed.

Overall Feedback: Good and useful visit.

INDUSTRIAL VISIT – FEEDBACK

**COMPANY NAME** : National Atmospheric Research Laboratory(NARL)  
**DATE OF VISIT** : 15.2.2019  
**PLACE** :Gadanki, Andra Pradesh  
**TIME SLOT** : 11:00 AM – 12:30 PM  
**YEAR** : II, III & IV Year  
**TOTAL NO. OF STUDENTS** : 24  
**FACULTY ACCOMPANIED** : Mrs.V.Subapriya,AP/IT & Mr.M.Ahsan Shariff ,AP/IT

We went for an Industrial visit to National Atmospheric Research Laboratory(NARL), Gadanki, Andra Pradesh.

**General Observation:**

- They presented a video session about overview of NARL and its origination.
- Visited Raleigh Doppler Lidar and Radar laboratory.

**IT Perspectives:**

- Visited vast data storage laboratory, from where datas are send for ISRO-SHAR.
- Explained in detail about High Performance Computers (HPC) and its applications in Atmospheric research.
- Explained the operations of Data tier, Clusters and Storage area networks.
- Shared knowledge about getting jobs at NARL.

Session was really helpful for the students.

Respected Sir,

**SUB: Industrial Visit- Reg.**

We have arranged one day Industrial visit on National Atmospheric Research Laboratory, Tirupathi for II, III and IV Year Students of strength 29 on 15-02-2019 – Friday.

I kindly request you to approve this Industry visit and sanction the amount of Rs 3,100/-. Also I request you to arrange the transport facility on that day for the below given address. Please do the needful.

The details are below,

No. of students = 29\*100 = 2900

No. of faculty = 2\*100 = 200

-----  
TOTAL: Rs.3,100/-

Entry fee 2500  
Schedule: Grand Total: 5600

Departure from college: 5.30 am

Session 1: 10.30 am to 12.00 noon

Departure from organization: 2.00 pm

**Organization Address:**

Department of Space  
Government of India  
National Atmospheric Research Laboratory,  
Gadanki – 517 112,  
India.

<b>Write-up on Event</b>	<p>The Department of Computer Science and Engineering, Information Technology of MSAJCE, Chennai organized International Virtual Conference on "Computational Intelligence and Applications" 17/07/2020 through online mode (Google meet). The programme Commenced at 10.00 AM, with an welcome address and Introduction speech of the Chief guest Mr. M.Narayana, Ms. Sujitha Chinnathambi by Mrs.J.Hebziba Elizabath Dept-MSAJCE. The Chief guest Mr. M.Narayana, delivered his speech with an presentation on Information Technology and Computer Science and Engineering emerging and evergreen fields of engineering . If you compare the progress of last two decades, it is much more than last 100 years. As we all know our country can make progress only if the scientific and technocrats can utilize their knowledge for exploring newer fields of research and developments, especially in the field of Computational Intelligence. The Faculties and Students from various colleges around tamilnadu participated, during the session 200 participants actively participated. At the end of the session Mr.S.Senthilpandi, AP/IT Dept - MSAJCE delivered the vote of thanks.</p>

# Prediction of Lung Cancer Using Classifier Models

Shamreen Fathima Saddique<sup>1</sup>, Sharmithra P<sup>2</sup>, Justin Xavier D<sup>3</sup>

Student, Dept. of Computer Science, Mohamed Sathak A.J College of Engineering, India<sup>1</sup>  
Student, Dept. of Computer Science, Mohamed Sathak A.J College of Engineering, India<sup>2</sup>  
Asst. Professor, Dept. of Computer Science, Mohamed Sathak A.J College of Engineering, India<sup>3</sup>

**Abstract:** In recent years, Lung Cancer has become a serious disease that threatens the health and mind of human. Efficient predictive modeling is required for medical researchers and practitioners. This study proposes a lung cancer prediction model based on naïve Bayes which aims at analyzing some readily available indicators (age, smoking, alcohol consumption, chest pain, etc.) effects on lung cancer and discovering some rules on given data. The method can significantly reduce the risk of disease through digging out a clear and understandable model for lung cancer from a medical database. Naive Bayes classifiers are a family of simple probabilistic classifiers based on applying Bayes' theorem with strong (naive) independence assumptions between the features. The validation of results at Chennai Port Hospital shows that the naïve Bayes algorithm can greatly reduce the problem and it can effectively predict the impact of these readily available indicators on the risk of lung cancer. Additionally, we get a better prediction accuracy using naïve Bayes than the support vector machine algorithm, logistic regression and random forest.

**Keywords:** prediction model; naïve Bayes; Lung Cancer

## 1. Introduction

Machine learning is a field of computer science that gives computer systems the ability to "learn" (i.e. progressively improve performance on a specific task) with data, without being explicitly programmed. machine learning explores the study and construction of algorithms that can learn from and make predictions on data— such algorithms overcome following strictly static program instructions by making data-driven predictions or decisions, through building a model from sample inputs. Machine learning is employed in a range of computing tasks where designing and programming explicit algorithms with good performance is difficult or infeasible.

RStudio is a free and open-source integrated development environment (IDE) for R, a programming language for statistical computing and graphics. RStudio is available in two editions: RStudio Desktop, where the program is run locally as a regular desktop application; and RStudio Server, which allows accessing RStudio using a web browser while it is running on a remote Linux server. Prepackaged distributions of RStudio Desktop are available for Windows, macOS, and Linux.

RStudio is available in open source and commercial editions and runs on the desktop (Windows, macOS, and Linux) or in a browser connected to RStudio Server or RStudio Server Pro. Further Rstudio allows us to perform predictive analysis using machine learning algorithms.

## 2. Problem Definition

Modern medicine generates a great deal of information stored in medical database. In today's world, every individual is facing growing health issues which need to be cured quickly. With continually increasing lung cancer in patients due to high intake of tobacco and puff, predicting the cancer in patients at an early stage is the huge issue for the clinicians to make decisions. Since it is considered as a taboo in some countries people fear to come forward to diagnose the disease, the best place to find occurrence of disease is by

applying machine learning concept to create the predictive model by using the data collected in the hospital regarding the patients affected by lung cancer to predict lung cancer.

## 3. Existing System

In the existing system, the model is created for the prediction of Lung Cancer. It is based on the basis of Support Vector Machine Algorithm. The model is established on the CT images.

### Drawbacks

- The existing model requires scans images of the patients to detect the presence of cancer in patients.
- 77% of accuracy is achieved in this model.
- The model is trained with only 12 CT scans in which 6 of them are cancer affected patients and rest are non-affected.

## 4. Proposed System

### 4.1 Dataset Description

Dataset used in this study is more precise and accurate in order to improve the predictive accuracy of data mining algorithms. Attributes for symptom is used to diagnosis of disease are to be handled efficiently to obtain the optimal outcome from the data mining process. The attribute such as Age, Gender, Yellow Finger, Anxiety, Peer Pressure, Chronic Disease, Fatigue, Allergy, Alcohol Consumption, Smoking, chest pain, coughing of blood, shortness of breath, wheezing, swallowing difficulty are taken to consider for predicting the lung cancer. Rstudio implements algorithms for data pre-processing, feature reduction, classification such as Naive Bayes, Random Forest, Support Vector Machines, K-Nearest-Neighbours are also implemented. The performances of these algorithms for lung cancer disease are analyzed using confusion matrix.

**Abstract :** Being widely adopted by worldwide service providers, the MPLS technology to connect geographically separated customer sites becomes important in reliability. It is used to implement VPNs to connect the customer networks i.e., Inter-provider VPN network. In this paper we first briefly describe VPN switch are behind the scope of secure private MPLS connections such as several VPN deployments emerged from the sudden growth of requirements. We then discuss about the requirements of inter connections from customer end to service provider in one's perspective. We then propose and discuss the methods used for deployment options from service providers point of view. In this paper, we present an novel method of communication among branches or partner branches of an organization each of them situated at distinct geographical areas with absence of the same ISP in every area. We came up with an idea of designing an Inter provider network i.e., connecting multiple ISPs with the private network mechanism which provides global reachability. It deals with the security issues confidently and provides there placement of Internet in private / public organizations.

**Index Terms** — *MPLS Technology, VPN, Inter-provider network, VPN deployments, distinct geographical areas, absence of the same ISP, replacement of Internet, private / public organizations.*

## 1. INTRODUCTION

The Internet has proven that multiple separately managed networks can be built and interconnected in such a way that end users can send and receive traffic without having to be aware of the underlying fact that multiple providers may be involved in transporting their traffic. While the Internet model has demonstrated success in multiple providers working together, for the model uses a very basic set of requirements only. Given a set of fundamental rules agreed on by all providers, network destinations and associated metrics can be shared. Providers monitor and maintain their own autonomous systems (ASs) and peering points, and can forward Internet traffic they receive toward intended destinations reach able through alternate providers.

MPLS is enabling a new generation of advanced services, such as network-based layer 3 (L3) and layer2 (L2) virtual private networks (VPNs), and voice over IP (VoIP) over MPLS and MPLS VPNs. Now that these new features are deployed in each individual provider's network, the need to inter connect the networks of multiple providers to provide end-to-end advanced services becomes urgent, as no single provider has a footprint large enough to satisfy all customer needs. Furthermore, the availability of inter-provider quality of service (QoS) capability. All these services are very different in nature than simple Internet traffic delivery. New business models, new technologies, and new processes need to be developed, and a higher level of cooperation among providers is needed to meet service demands.

Unlike Internet services, currently there are no common rules and procedures among providers for MPLS interconnections. Each connection between providers is customized to suit the specific needs of the involved providers. This adhoc nature requires tremendous effort to establish business models, processes, ordering, billing, interconnection technologies, security agreements, monitoring and troubleshooting processes, QoS and class of service (CoS) definitions, and service level agreement (SLA) implementation. While cooperation between providers solves some issues, other issues, such as end-to-end QoS, still present consider able challenges part of the initial effort to move closer to common solutions and practices, with the best interests of providers and end users in mind.

So far there are many ISPs (Internet Service Providers) providing MPLS VPN network connections, VPN only connections, Internet oriented MPLS connections based on layers i.e., L2VPNs & L3VPNs. Also the Inter provider connection (Multiple ISPs) through Internet based VPNs using MPLS in the background are in exercise currently. This paper's main theme is that we can incorporate the different ISPs to implement connection over customer sites by private ip address scheme with the agreement of each provider.

## 5. ASBR-to-ASBR approach using MP-eBGP method

In this method, ASBRs use traditional IPv4 routing to integrate VPNs across two adjacent service providers. In this method, the ASBRs use MP-eBGP (Multi-Protocol-Exterior Border Gateway Protocol) to peer with each other to exchange VPNv4 (version4) routes between autonomous systems[2]. This is called the ASBR-to-ASBR approach, also known as MP-eBGP for VPNv4 exchange. This approach there for reduces the need to have per-VPN configuration on the ASBRs as in the back-to-back VRF method and there for allows VPNv4 prefixes to be carried across multiple service providers.

Nonetheless, to allow the VPNv4 prefixes transportation, the link between the autonomous systems must support the exchange of MPLS packets because the VPNv4 updates are encapsulated in MPLS packets when they traverse an Autonomous system and thus need to be capsulated when going across the ASs. The MP-eBGP session between directly connected interfaces on the ASBRs enables the interfaces to forward label packets [2].

Some important characteristics to keep in mind when using this method:

- No requirement of LDP or IGP (Interior Gateway protocol) to be able don't the interface connecting the two ASBRs.

- BGP default Route-target filter need not to be configured on an ASBR that does not have any VRFs configured. The command ensures that the ASBR accepts the BGP VPNv4 prefixes from other Provider Edge Routers inside the AS [2].

To maintain an end to end LSP path from customer site of one ISP too their ISP customer site ,MPLS is enabled between the ASBRs. Routers in the network with ASBR-ASBR configuration are configured with the following:

- 1) The provider edge routers on AS 65001 and AS 65002 are configured with MPLS using LDP protocol and also designed with bgp configuration.
- 2) Route reflectors which are used by each ISP are updated with IP ranges using BGP protocol.
- 3) Border routers (ASBRs) are configured with MP-eBGP protocol.

## 6. RESULTS AND DISCUSSION

Significant reduction in latency is observed with the simulation of the design in ASBR-to-ASBR Approach using MP-eBGP Method.

The inter-connection between routers are made successfully using OSPF (as IGP protocol) and iBGP protocols within both ISPs and MPLS is enabled.

## CONCLUSION AND FUTURE ENHANCEMENT

As the proposed system brings the precinct of inter connection of ISP-ISP, it has the significance of private IP range. We are assigning the private ip addresses to all the channeled routers and hosts toward the data. Although most of the companies in the countries work through Internet with their host computers access, it is formidable that their data is open to public. The risks associated with the Internet are advertised everyday by the trade and main stream media. For corporations the risks are even more and apparent. Stolen or deleted corporate data an adversely affect people's livelihoods, cost the company money. If it's a small company then it could put it out of business. Since the Internet is a public network you always risk having someone access any system you connect to it. So this proposal of a private network comes with a complete no exposure of public domain yields the ease of having no doubt about the protection of information dealt between the inter-branches. More over this design of network also provides very low latency and there by high speed performance since the overload caused by the exchange of overheads in the system of Internet is totally reduced and acts as a leased connection to the branches from the organization. This method also helps the providers / operators to enhance their revenue value if they form their own suitable agreements each other because of high probability of Internet services exhausts or becomes almost non-trustable in the future. In this paper has the facility to be employed in IPv6 addressing also which is to be deployed in the fourth coming years which will enable higher degree of addressing and auto-configuration mechanism.

has successfully completed the online, non-credit Specialization

# Machine Learning with TensorFlow on Google Cloud Platform

This five-course online specialization teaches course participants how to write distributed machine learning models that scale in Tensorflow, scale out the training of those models, and offer high-performance predictions. Also featured is the conversion of raw data to features in a way that allows ML to learn important characteristics from the data and bring human insight to bear on the problem. It also teaches how to incorporate the right mix of parameters that yields accurate, generalized models and knowledge of the theory to solve specific types of ML problems. Course participants experimented with end-to-end ML, starting from building an ML-focused strategy and progressing into model training, optimization, and productionalization with hands-on labs using Google Cloud Platform.

Sulthan Mohaideen N.K

has successfully completed the online, non-credit Specialization

## Machine Learning with TensorFlow on Google Cloud Platform

This five-course online specialization teaches course participants how to write distributed machine learning models that scale in Tensorflow, scale out the training of those models, and offer high-performance predictions. Also featured is the conversion of raw data to features in a way that allows ML to learn important characteristics from the data and bring human insight to bear on the problem. It also teaches how to incorporate the right mix of parameters that yields accurate, generalized models and knowledge of the theory to solve specific types of ML problems. Course participants experimented with end-to-end ML, starting from building an ML-focused strategy and progressing into model training, optimization, and productionalization with hands-on labs using Google Cloud Platform.

The Principal  
MOHAMED SATHAK A.J. COLLEGE OF ENGINEERING  
IT PARK, SIRUSERI, OLD MAHABALIPURAM ROAD  
CHENNAI - 603103  
TAMIL NADU

Dear Sir/Madam,

Sub: Establishing SWAYAM NPTEL Local Chapter in your college

Greetings from the NPTEL office.

This is to acknowledge the receipt of your letter accepting to host SWAYAM NPTEL Local Chapter in your institution.

The Single Point of Contact (SPOC) nominated from your college is

**Name of SPOC: DR. E. DHIRAVIDACHELVI**  
**Designation: PROFESSOR**  
**Department: ELECTRONICS AND COMMUNICATION ENGINEERING**  
**Contact No(s): 9442046457**  
**E-mail id: nptelspocmsajce@gmail.com**

We wish to inform you that all future correspondence related to NPTEL contents and online courses will be made to the afore-mentioned SPOC. He/she will be routinely updated with all the latest NPTEL initiatives which then may be circulated among the students.

We are also happy to share that a dedicated SWAYAM NPTEL Local Chapter web page is being created and your institution will have a separate page on it (<http://nptel.ac.in/LocalChapter>).

Thanking you.

Sincerely

Prof. Andrew Thangaraj  
NPTEL Coordinator  
IIT MADRAS

Reg. No. 311819205002

Mohamed Sathak AJ College of Engineering  
Chennai.

Dear Aship,

**Sub: Internship**

On behalf of **Shiash Info Solutions Private Limited**. We would like to inform that you are being accepted as one of our interns. We are pleased to inform you that you have been qualified as per the requirements for the internship. You will be working with our Technical team.

Your internship will begin with effective from **November 2021 to February 2022**. You will be assigned to various tasks which relates to the project assigned to you after which your performance will be assessed and appraised.

For **Shiash Info Solutions Private Limited**

**Ashwini Kanniyappan**

Manager- Human Resources

**PRINCIPAL**  
**MOHAMED SATHAK A.J. COLLEGE OF ENGINEERING**  
34, Rajiv Gandhi Road (OMR), Siruseri, IT Park  
Chennai-603 103.

**Shiash Info Solutions Private Limited**

#51, Level 4, Tower A, Rattha TEK Meadows, Old Mahabalipuram Road,  
Sholinganallur, Chennai- 600 119, Tamil Nadu, India.

## APPLICATION FOR CONDUCTING VALUE ADDED COURSES

1. Name of the Department : Computer Science and Engineering  
& Information Technology
2. UG programme : B.E
- 3. Details of the Value-Added Courses:**
- a. Name of the Value Added Courses : IVA018 Advanced Python and  
Introduction to Machine Learning
- b. Type of Value-Added Courses : (Lab integrated theory)
- c. Short Description : Enclosure 1 enclosed - YES / NO
- d. Syllabus including Reference : Enclosure 2 enclosed - YES / NO
- 4. Target audience:**
- Semester (indicate if more than one) : VIII<sup>th</sup> Semester only
- Others :
- 5. Details of Faculty handling the course:**
- a. Name of the Faculty handling the Value Added  
Course : Mr.Rama Mohan Reddy
- b. Details including designation and expertise : Enclosure 3 enclosed - YES / NO
- c. Contact details
- Email ID : ramamohan3g@gmail.com
- Phone No : +91 7032537345
6. Tentative Time Table including dates  
of internal assessments : Enclosure 4 enclosed - YES / NO
7. Number of students opting for the course : 41
8. Department Consultative Committee -  
Minutes : Enclosure 5 enclosed - YES / NO
9. Name and Designation of the Coordinator : Mr. S.Senthilpandi, Assistant Professor,  
Department of Information Technology,  
Mohamed Sathak A J College of  
Engineering.

  
Head of the Department  
(with date & seal)

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING(R 2017)

VALUE ADDED COURSE

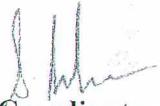

DEPARTMENT CONSULTATIVE COMMITTEE – MINUTES OF THE MEETING

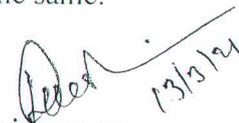

Date: 19/01/21

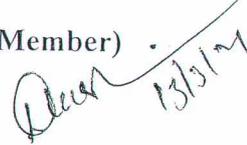

As per the Regulations 2017, a department consultative committee is constituted to offer value added course for the 8<sup>th</sup> semester, B.E Computer Science and Engineering and Information Technology students pursuing their studies at Mohamed Sathak A J College of Engineering (MSAJCE), Siruseri, Chennai. The following members were present for the meeting held on 18/01/2021 at Department of Computer Science and Engineering, MSAJCE.

S.No.	Name & Designation	Member of Bodies	Signature
1.	Mrs M.Premalatha, Assistant Professor, Department of Computer Science and Engineering, MSAJCE	Monitor the progress of the course	
2.	Mr.D.Weslin, Associate Professor, Department of Information Technology, MSAJCE	Senior Faculty Member	
3.	Mr S.Senthilpandi, Assistant Professor, Department of Information Technology, MSAJCE	Coordinator	
4.	Mrs Sankari, Assistant Professor, Department of Computer Science and Engineering, MSAJCE	Faculty handling the course	

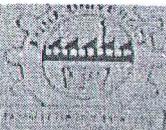

The consultative committee has decided to offer IVA018 Advanced Python and Introduction to Machine Learning for the students since it is essential for them to update with the current technology in the IT Industry. The committee recommends Mrs Sankari, Assistant Professor/CSE to handle the course and train the students in Machine Learning. The curriculum & syllabus, internal assessment pattern and awarding of grades are discussed and passed on the meeting for approval. The consultative committee constituted for value added course has recommended to conduct the course as lab integrated theory and approved the same.

VALUE ADDED COURSE

**IVA018 Advanced Python and Introduction to Machine Learning**

TIMETABLE

The value-added course can be conducted in the summer vacation for 10 consecutive days covering 30 hours to earn 2 credits by the students.

Day (12.30 PM to 3.30 PM)	Topic	Assessment
Day 1	Unit I	-
Day 2	Unit I & II	-
Day 3	Unit II	-
Day 4	Unit II & III	-
Day 5	Unit III	Assessment Test – I
Day 6	Unit III & IV	-
Day 7	Unit IV	-
Day 8	Unit IV & V	-
Day 9	Unit V & Lab Programs	-
Day 10	Lab Programs	Assessment Test – II

ASSESSMENT I & II PATTERN

Test Duration: 1 Hour

**QUESTION PAPER PATTERN:**

Part A (50\*1 = 50 Marks) - Objective Type Questions

Part B (25\*2 = 50 Marks) - Analytic & Programming Type Objective Questions

**AWARD OF GRADES:**

Letter Grade	Grade Points	Marks Range
O	10	91-100
A+	9	81-90
A	8	71-80
B+	7	61-70
B	6	50-60

Class :IV/VIII

Academic Year: 2020-21

Name of the Value Added Course	Advanced Python and Introduction to Machine Learning	Name of the handling Faculty	G Rama Mohan Reddy	
<b>Course Objective</b>				
1. To expose students with the basics of managing the Numpy				
2.To explore the various analysis of Pandas				
3.To examine the basic of Plotting and Visualization				
4. To understand the overview of Object Oriented Programming Concepts				
5. To understand the Machine Learning concepts				
<b>Course Outcome</b>				
1 Explain the different Numpy functions				
2 Buid the applion on Pandas functions				
3 show the Plotting and Visualization				
4 Develop the Object Oriented Programming				
5 judge the Machine Learning concepts				
<b>Lesson Plan for VAC</b>				
Sl. No.	Topic	T / R*	Periods Required	Mode of Teaching
		Book		
1	Creating Arrays-Numpy Data Types	T1	2	PPT
2	Array Mathematics-Array Manipulation	T1	1	PPT
3	Subsetting, slicing , Indexing-boolean	T1	1	PPT
4	Indexing-Array Manipulation	T1	1	PPT
5	Reshaping,Transposing	T1	1	PPT
6	Splitting and combining arrays	T1	1	PPT
7	Inspecting Array and aggregation array.	T1	2	PPT
8	Series-Dataframe	T1	2	PPT
9	Importing pandas- Dictionary into data frames	T1	1	PPT
10	Read and write to CSV and excel	T1	1	PPT
11	Selecting, boolean indexing	T1	1	PPT

<b>IVA018 Advanced Python and Introduction to Machine Learning</b>	<b>L</b>	<b>T</b>	<b>P</b>	<b>C</b>
	<b>0</b>	<b>0</b>	<b>2</b>	<b>1</b>

**Advanced Python and Introduction to Machine Learning Course Curriculum**

**Objective of this course**

- To learn Advance mathematical libraries of python.
- To understand data exploration and data wrangling.
- To perform data visualization ,exporting and importing file contents.
- To understand basics of machine learning

**Numpy** 4 + 2

Creating Arrays-Numpy Data types-Array Mathematics-Array Manipulation-Subsetting,Slicing,Indexing-boolean Indexing-Array Manipulation –Reshaping,Transposing,m,Splitting and combining arrays-Inspecting Array and aggregating array.

**Pandas** 4 + 2

Series- Dataframe-Importing pandas-Dictionary into data frames ,read and write to CSV and Excel,Selecting,Boolean Indexing,Setting,dropping,soring,filling missing values,getting dataframe information and retrieving series,summary and applying lambda function.

**Plotting and Visualization** 4 + 2

Figures-Subplot-Colors-Markers-Linestyles-Ticks-Labels-Legens-drawing subplots-Lineplot-Barplot-Scatter Plot-Histograms.

**Object Oriented Programming** 4 + 2

OOPS concepts- creating class-Object-accessing class members-inheritance-abstract class.

**Introduction to Machine Learning** 4 + 2

Introduction to Machine Learning – types of learning – supervised – unsupervised – K means Clustering – Hierarchical Clustering.

**Mini Project**

Pre requisite : Python Programming Total period: 20+10(practice& project)= 30 periods

Mr. MEERAAN SHA ABDUL A.R.,  
2/39, SCHOOL 2ND STREET,  
ECR, PALAVAKKAM,  
CHENNAI-600041, TAMILNADU.

Dear Mr. MEERAAN SHA ABDUL A.R.,

### OFFER OF EMPLOYMENT

We are pleased to offer you employment for the position **PRESALES ENGINEER** with **ZOHO CORPORATION PRIVATE LIMITED**.

### REMUNERATION

Your annual Cost to Company will be **Rs.480000/- (RUPEES FOUR LAKH EIGHTY THOUSAND ONLY)**. The break-up of your gross salary and information specific to bonus and gratuity are set out in Annexure A. Salary will be paid by the last day of each month. All additional benefits that Zoho currently provides employees are set out in Annexure B.

### DATE OF JOINING

Your date of appointment is effective from your date of joining .

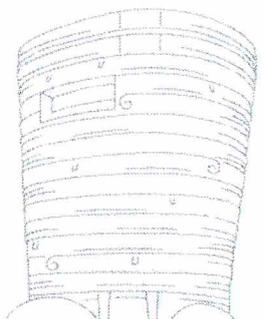

### PROBATION

You will be on probation, at a minimum, until completion of the performance review cycle that immediately follows completion of six months from your date of joining, provided that your performance is determined to be satisfactory. If your performance is not satisfactory, your probation may be extended until your performance is determined to be satisfactory. Upon completion of the probation period you will be confirmed on the rolls of the company.

### SALARY REVISION

Revision to your compensation will be after one year from the date of joining, subject to satisfactory completion of the probation by you. Zoho operates a Pay-for-performance Policy and any salary revision will take your performance into account.

**PRINCIPAL**  
**MOHAMED SATHAK A.J. COLLEGE OF ENGINEERING**  
No. Rajiv Gandhi Road (OMR), Siruseri, IT Park  
Chennai-603 102.

## **ADHERENCE TO POLICIES**

During your employment with the Company you shall adhere to all policies of the Company including IT Services Acceptable Use Policy, Acceptable Encryption Policy, Email Policy, Extranet Policy, Information Sensitivity Policy, Password Policy, Remote Access Policy, Virtual Private Network Policy and such policies as may be decided by the Company from time to time. The Company may amend these policies from time to time and you agree to be bound by such subsequent versions of the policies. The Company will communicate important information about its policies by way of electronic mail notification and/or the Company's intranet. The policies are incorporated into the terms and conditions of employment by this reference.

## **CONFIDENTIALITY**

Information you have access to during the course of your employment are confidential and proprietary information of the Company, its Affiliated Companies and customers. "Affiliated Companies" means Zoho Corporation Private Limited and any entity in which the management of Zoho or the company has substantial interest. You agree not to disclose such information other than on a need-to-know basis. In this regard, you agree to observe in good faith your obligations under the Agreement Regarding Confidential Information and Proprietary Developments, a copy of which is included with this Letter of Offer of Employment for your reference and which will be executed separately by you upon joining the Company. The matters related to your compensation are strictly confidential between you and the Company and should be treated as such.

## **TRANSFERABILITY**

You may be required to work in shifts (including night shifts) at any time, during the term of your employment with the company. You may be asked to work in any department or section of the Company in any capacity by either the management or the head of the department or section, and you agree to work accordingly. You may also be required to work on transfer or deputation in any other concern in which the management has any interest or any of the other branches or regional offices, anywhere in India or abroad, now existing or to be set up in future and you shall be bound to work in such concerns or at such locations.

## **ASSIGNMENT OF RIGHTS IN WORK**

You agree that all works performed and things developed, including inventions, designs, improvements, writings, and discoveries made, during your employment and pertaining to the business conducted by the Company shall remain the exclusive property of the Company. You shall assist the Company in obtaining patents and copyrights on all such inventions, designs, improvements, writings and discoveries deemed suitable for patent and copyright by the Company, and shall execute all documents and perform all necessary actions to obtain the patents and copyrights, for the purpose of vesting the Company with full and exclusive title thereto, and protecting the Company against infringement of the patents and copyright by others.

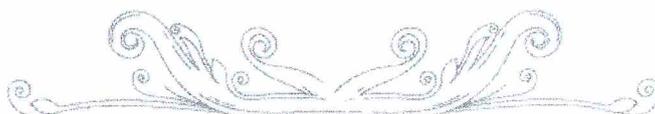

## **CONCURRENT EDUCATION**

You shall not, during the term of your employment with the Company, pursue any full time or part time courses in any institution/universities in India or any other foreign country, without the express approval by the company.

## **CONCURRENT EMPLOYMENT OR BUSINESS**

You shall not engage yourself directly or indirectly in any other trade, business or occupation without obtaining the management's prior permission in writing. You shall not carry on any activity and/or commit any act prejudicial to the interests of the Company.

**PRINCIPAL**  
**MOHAMED SATHAK A.J. COLLEGE OF ENGINEERING**  
34, Rajiv Gandhi Road (OMR), Siruseri, IT Park  
Chennai-603 103.

## NON-COMPETE

You shall not, during the term of your employment with the Company and for a period of 1 (one) year after termination of employment, either directly or indirectly own, invest in, direct, aid or work, in any capacity, including as full/part time employee, consultant or advisor for any Competitor or SI Partner of the Company.

A "Competitor" is a concern engaged in developing Computer Programs similar to the Software products or services developed and marketed by the Company or any of its Affiliated Companies. An "SI Partner" is a concern which the Company or its Affiliated Companies has appointed as a partner for providing services to Customers based on products or technology owned by the Company or Affiliated Companies.

## TERMINATION

Termination at will: This employment agreement is terminable at will by either party.

Termination for misconduct: You agree that the Company may terminate this Contract without notice and without payment in lieu of notice in any of the following events:

1. If any declaration/document given or furnished by you to the Company proves to be false; or if you are found to have wilfully suppressed any material information;
2. If you are found guilty of misconduct, disobedience or of conduct that tends to bring disrespect to the company;
3. If you are found to be in breach of any of your obligations under the terms and conditions of employment;
4. If you are found to have disclosed any confidential information of the Company, its Affiliated Companies or customers of the Company and Affiliated Companies;
5. If you have violated the Company's policies;
6. If the result of any reference or background check is unsatisfactory;
7. If you are found to be under the influence/possession of alcohol/drugs inside the office premises;
8. Your access cards are not transferable. If it is found to be mishandled for any proxy attendance;

Termination for any of the reasons stated above may be notified to the person(s) whose reference was submitted by you and the Company will not be liable to give you any prior notice nor pay any compensation in lieu of a notice period.

## NON-SOLICITATION

You agree that for a period of six months after termination or expiration of your employment with the Company, regardless of the reason for termination or expiration, you shall not directly or indirectly, solicit for employment, or advise or recommend to any other person that they employ or solicit for employment, any person employed at that time by the Company, or by any Affiliated Company.

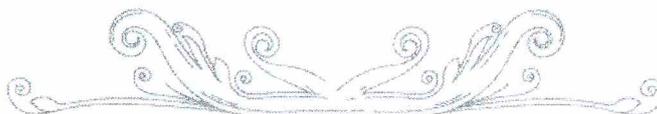

## AMENDMENT OF TERMS AND CONDITIONS OF EMPLOYMENT

The Company may amend the terms and conditions set forth herein from time to time and you agree to be bound by such amended terms and conditions of employment .

## GOVERNING LAW AND JURISDICTION

The terms and conditions of this Letter of Offer of Employment are governed by the laws of India. All disputes arising out of your employment with the Company or involving the terms and conditions of this Agreement will be subject to the exclusive jurisdiction of the courts in Chennai, India.

PRINCIPAL  
MOHAMED SATHAK A.J.COLLEGE OF ENGINEERING  
34, Rajiv Gandhi Road (OMR), Siruseri, IT Park  
Chennai-600 103.

**VALIDITY**

This offer of employment is enclosed with some of our important policies. You are requested to download, read, understand and sign the documents on or before **28-Sep-2021**. Your signature indicates your acceptance of the terms and conditions of this employment.

Upon submitting your acceptance, you will be asked to provide a tentative date of joining in the personal details form. However, closer to the actual date of joining you will receive a confirmation e-mail from us.

The matters related to your compensation are strictly confidential between you and the company and should be treated as such.

I am sure you will find this offer very exciting and I, on behalf of Zoho, assure you of a very rewarding career in our organization.

With best wishes,

Yours sincerely,

For ZOHO CORPORATION PRIVATE LIMITED

Mohammed Sohail  
Manager - HR

I hereby confirm that I have read, understood and accepted the offer, agreement and the company policies.

**ANNEXURE A**

**NAME** : MEERAAN SHA ABDUL A.R  
**DESIGNATION** : PRESALES ENGINEER

Details	Monthly	Annual
Basic	16000	192000
HRA	8000	96000
Other Allowance & Flexible component	14080	168960
<b>Gross Salary</b>	<b>38080</b>	<b>456960</b>
Employer Provident Fund (12% of Basic+TA)*	1920	23040
<b>Cost To Company (CTC)</b>	<b>40000</b>	<b>480000</b>

\* You will be covered under the Company's Provident Fund Scheme from the date of joining the organization. Under this scheme, the company will contribute 12% of your basic salary per month as employer contribution and an equal amount will be deducted from your salary as your contribution towards the fund.

**OTHER BENEFITS:**

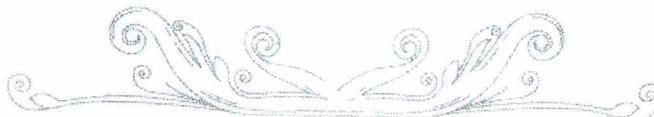

**PROSPERITY SHARING PLAN**

PSP (Prosperity Sharing Plan) is a one time bonus scheme derived based on company's productivity. Every year during April or May, we will decide on extending this scheme to our confirmed employees after reviewing the company's growth and productivity. Based on your performance and confirmation you may be eligible for the same as determined by your manager, subject to scheme existence for that year.

**GRATUITY**

Gratuity will be payable as per the Gratuity Act, upon separation from the company, subject to completion of minimum five years of employment with Zoho.

**PRINCIPAL**  
**M. SATHAK A.J. COLLEGE OF ENGINEERING**

Chennai-603 103.

## ANNEXURE B

The Company currently provides the following benefits to an employee:

### **GIFT CARD AMOUNT**

You will be paid an amount of **Rs.6000/- (RUPEES SIX THOUSAND ONLY)** once in a year towards your broadband connection. For the new comers, it is applicable from their date of joining. For the first year the amount will be pro-rated based on the joining date.

### **TRANSPORTATION FACILITY**

For safety and security reasons, the Company provides transportation facilities, including but not limited to shuttle services and cab services. However, Company does not recommend daily long commute to work. This offer is based on the assumption that you will move to a distance within 5-10 km of the office premises.

### **DEVICES AND GADGETS**

Company provides essential devices and gadgets for all its employees strictly for official purpose. However, what is essential (in most cases) is not the latest model device or gadget. We do not view the device or gadget as a status symbol or a fashion accessory but as an essential tool to get work done. Expecting the latest model device or gadget as a status symbol is most likely going to leave you disappointed. So please be prepared.

### **FOOD AND SNACKS**

Company provides food, snack and other refreshment for all its employees.

### **RECREATIONAL FACILITY**

Company provides certain recreational facilities to its employees of which some are offered at a nominal charge.

### **TEAM TREAT AND TRIP**

To improve the team collaboration, the company provides **Rs.1000/- (RUPEES ONE THOUSAND ONLY)** for team treat and **Rs.4000/- (RUPEES FOUR THOUSAND ONLY)** for team trip to all its eligible employees, every year.

### **GROUP MEDICLAIM INSURANCE**

Company will bear the full premium of covering you under the Group Medclaim policy for a sum insured of **Rs.400000/- (RUPEES FOUR LAKH ONLY)**. This is a floater policy where five of your dependents will also be covered along with you.

### **GROUP PERSONAL ACCIDENT INSURANCE**

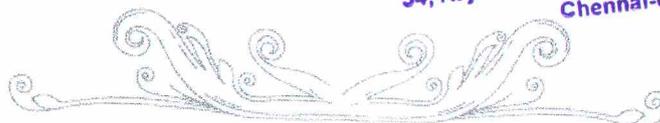

You will be covered under the Personal Accident Insurance Scheme, for a sum insured of **Rs.2000000/- (RUPEES TWENTY LAKH ONLY)**.

### **GROUP TERM LIFE INSURANCE**

As a welfare measure for its employees, the company has subscribed to the Group Term Life Insurance. The insurance coverage is worth of **Rs.2500000/- (RUPEES TWENTY FIVE LAKH ONLY)**.

*Please note that the above mentioned Insurance schemes are subject to change based on yearly renewal*

### Gowatr R&D Project

Following list of Students & Staffs are involve as a Team and developed Water Level Controller IoT Project for Gowatr Company during the period 27.1.2021 to 31.7.2021.

Sl. No	Name of the Faculty	Designation
1	Dr. I. Manju	Head/COE
2	S.Naveen Kumar	Assistant Professor - ECE
3	Mohamed Malik	Assistant Professor - ECE
4	K.Vairaperumal	Assistant Professor - EEE
5	K.Kathirvel	Technical Assistant
6	J.Arsath Parveez	Technical Assistant
Sl. No	Name of the Students	Year/Dept
5	Rajkumar.C	IV/ECE
7	Hameed Ziyath U.R	IV/ECE

### RESULTS AND DISCUSSION

Water level management system using IOT was implemented in a campus and this system works efficiently. The meter used to derive the flow measurement from pressure readings, the more accurate the pressure instrument, the more accurate the flow reading. Direct measurement with high accuracy pressure transmitters that match the level of accuracy required is recommended, and regular calibration of these transmitters is necessary to maintain the level of accuracy needed.

### **ATALON Product Center Private Limited R&D Project**

Following List of Students & Staffs are involve as a team and developed Study on Vibration Levels of Diesel Engine With and Without Turbocharger Diesel Engine Project for Atlon Product Center Private Limited Company during the period 21.07.2020 to 22.10.2020

<b>Sl. No</b>	<b>Name of the Faculty</b>	<b>Designation</b>
1	Dr.K.S.Srinivasan	Principal
2	Dr.R.Senthilkumar	HOD/Mechanical
<b>Sl. No</b>	<b>Name of the Students</b>	<b>Year/Dept</b>
1	AzbaqMeeran	Final Year/Mechanical
2	Abdul Mukshith	Final Year/Mechanical

### **RESULTS AND DISCUSSION**

In this project vibration level is measured and analyzing with and without turbocharger in diesel engine. Finally vibration level is reduced by proper air fuel mixture with turbocharger in diesel engine compared than without turbocharger. So efficiency is more and power output is high. Intensive research was performed on the reduction of Noise or vibrations of diesel the exhaust gas is used to rotate the turbine and then it is further worked with turbocharger. Now days it is good with applications of new technology regard to economic considerations and engine efficiency. Engine vibration testing and measurement techniques used and the various sensors mountings used to reduce the vibration. A vibration analysis system has been successfully developed with the help of virtual instrumentation. The chosen measurement technique was based on vibration signature analysis.

2	Mohamed SadiqBasha	Third Year/Mechanical

### **RESULTS AND DISCUSSION**

The natural frequencies for Steel, Aluminium, Glass Fiber Reinforced Polymer, Hemp and E-Glass Reinforced with Epoxy Resin have been found. Among these materials Hemp and E-Glass Reinforced with Epoxy Resin has lower frequency. From the results obtained it has been concluded that the frequency obtained for Hemp and E-Glass Reinforced With Epoxy Resin may not be suite for the chosen application (car wheel rim) but it can be used for Car roof, Bonnet, Doors, C-Pillars, Body parts, Interiors for Automobiles. Thereby, the vehicle weight can be reduced and efficiency increases. This also helps to bring down the vibration in the body parts hence the noise to the cabin is been reduced.
