Report on Talentia-2018 - Cultural Activities

Date: 13.11.2018

Talentia-2018- Cultural activities for the first year students was held in the college premises on 16.11.18 .Around twenty five students participated in the event.

Talentia- Cultural activities was conducted to motivate the first year students to expose their talents as freshers.

Dance is more than just a way of exercising and entertainment; it is a way of communicating. Students can gain a multitude of important developments- sensory and spatial awareness, coordination, concentration and mobility. Also to express emotions, increase confidence or even just to make feel better. We love it when we can bring dance in to other core curriculum subjects, to cater for all ways of learning.

Confident and healthy voice use links to a positive self-concept and an ability to communicate. Successful singing promotes self-esteem, general confidence and also self-efficacy. The voice is a key component of who we are; its use reflects our mood and general psychological wellbeing, which is communicated to ourselves as well as to others.

Mime is an effective way of encouraging students to develop their acting skills in terms of body language posture, movements, gestures, etc. and to gain a greater awareness of its importance as a form of communication.

Dr. Manivannan. Dean/Academics spoke to the students and wish them good luck in all their endeavors.

Report on Hostel day

Date: 31.11.2018

The Hostel Day Cultural for first year students was conducted on 29.11.2018 in the college auditorium. Many hostel students participated in the program and exhibited their talents. All the HODs and the faculty members were present.

Dr. Balakrishnan HOD/S&H addressed the students and encouraged them to be cooperative and participate in all the activities of the college. He also advised the students to spend their time productively during their stay in the hostel.

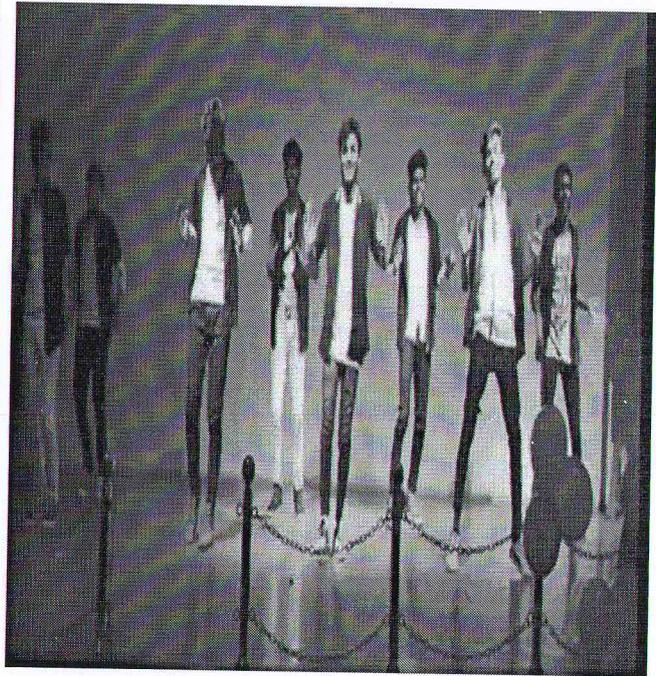

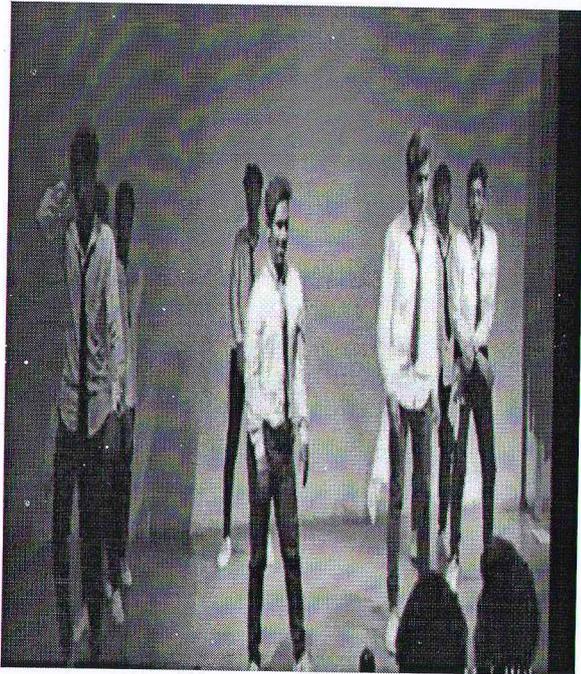

He added that Hostel is the second home for all hostel students during their college life. It is a place where they are groomed to mould their character, learn toleration, adjustments, enhance confidence level and all other social skills. The most unique feature of the hostel is that it houses students belonging to all the four years of the degree program. There is regular interaction between the seniors and juniors who consider their juniors as younger brothers and cater to all their academic, economic, and social needs and consequently providing a "home away from home" kind of feeling simultaneously making the college environmental friendly

During the program students exhibited their talents and performed in various cultural activities and enjoyed well. It teaches them a sense of responsibility to become self dependant and have a disciplined way of life adjusting to all situations.

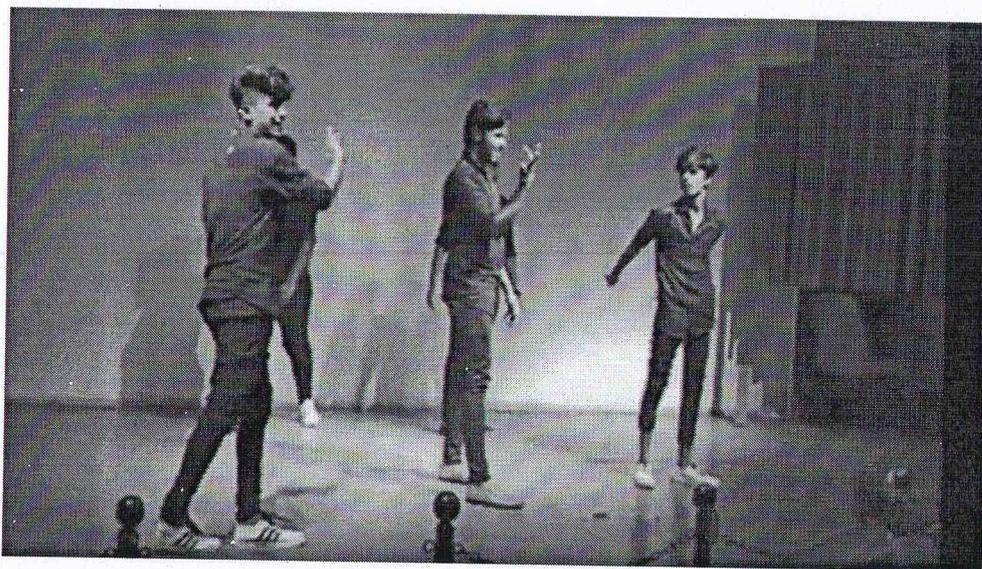

The program came to an end with the vote of thanks delivered by Abdul Wahab of II Mechanical Engineering. Refreshments were given to all the students at the end of the program.
